GENUINE ACCESSORIES

REALISE YOUR MACHINES FULL POTENTIAL.

SERIOUS MACHINERY. SERIOUS RESULTS.

FACTORY APPROVED DEALER FIT ACCESSORIES

Challenger tractors and RoGator Sprayers are engineered to operate for sustained periods, 24 hours a day throughout the seasons to get your work done as quickly and efficiently as possible.

Challenger accessories from AGCO Parts offer the same high levels of durability and performance. The comprehensive range includes front weights and rear hitches, external lighting and technology solutions such as Auto-Guide™ 3000, all covered by AGCO Parts 12 month warranty*.

EXTENDED WARRANTY – UP TO 5 YEARS ACCESSORIES COVER*

Challenger accessories fitted to a machine with extended warranty within the first 12 months of registration by the dealer, are covered for the period of warranty remaining.

*Terms and conditions apply and are available on request. Exclusions may apply.

The Genuine Choice

- ✓ Genuine factory engineered and approved parts
- ✓ Homologation tested and legislation compliant
- ✓ Superior high quality materials and finish
- ✓ AGCO Parts 12 month warranty as standard on all Genuine Accessories

FRONT BALLAST AND TRACK FRAME WEIGHTS

An integral part of setting up the machine is ensuring the correct ballast is used.

All weights have been engineered to deliver the robust ballast integrity required.

SPOOL VALVE KITS

Increase the number of hydraulic services your Challenger can perform by installing factory engineered integrated hydraulic lines and spool kits.

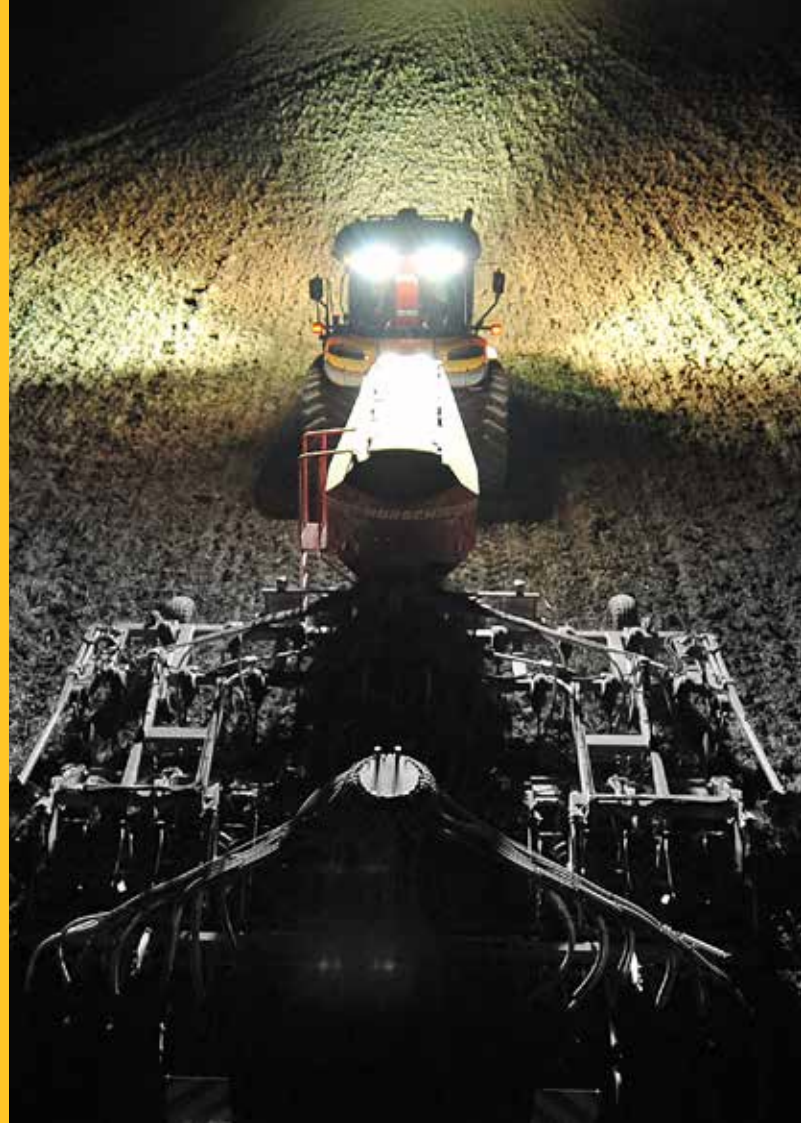

AUXILIARY LIGHTING

Rotating beacons and work lamps to ensure you can be seen as well as see the job at hand.

REAR HITCHES

Factory engineered and approved hitch solutions to capitalise on Challengers versatility and high power performance

TECHNOLOGY SOLUTIONS

Around 80% of farming costs are variables costs such as fuel, fertilizer, seeding material etc. By using guidance you can improve productivity and reduce these costs.

CHALLENGER AUTO-GUIDANCE KEY FEATURES INCLUDE:

- ✓ Auto-Guide™ – Automatic steering system
- ✓ Maximum use of implement width by reducing overlap
- ✓ Optimal spacing of plant/seeding material
- ✓ Optimal performance in all light conditions
- ✓ A full range of upgradeable accuracy options, to suit applications from spraying and stubble management to row cropping:

| | | |
|------------------------|--------------|----------|
| Standard (Free) | EGNOS | +/- 30cm |
| Subscription | VBS | +/- 20cm |
| Subscription | HP | +/- 5cm |
| Subscription | RTK | +/- 2cm |
| Base station | HiPer Ag RTK | +/-2cm |

Auto-Guide™ 3000 receiver enables the use of EGNOS free sub-metre accuracy correction signals. This can be upgraded up to RTK centimetre accuracy for seeding and planting.
